

## West Bengal Chemical Industries Limited bagged 9 Patents in API Manufacturing

*West Bengal Chemical Industries Limited (WBCIL) just scored a big win with 9 new patents in making drugs' active parts. An API manufacturing top-notch player like WBCIL, known for crafty and top-tier work in making the best quality active pharma ingredients is super proud to share their latest win of pulling in 9 game-changing patents.*

**KOLKATA, India - March 7, 2025 - [PRLog](#)** -- Launching back in 1962, WBCIL's been leading the charge in drug-making coolness and is recognized as one of the big shots in India for making these active bits. After rocking it for over 60 years, they've become a big name in global API industry.

### **Transforming API Production: 9 Patents Showcase Commitment**

WBCIL's nine patents show WBCIL's commitment to pushing technology forward and supporting sustainable growth in the drug-making industry. They cover:

1. [Ferric Carboxymaltose](#)
2. Iron Isomaltoside
3. Iron (III) Coordination Complex
4. Ferric Derisomaltose
5. [Ferric Citrate](#)
6. Sucroferric Oxyhydroxide
7. [Enclomiphene citrate](#)
8. Improved Ferric Carboxymaltose
9. [Ferric Maltol](#)

From the USA, Europe to Middle East, and up in North Africa- WBCIL is a global exporter of APIs. WBCIL's stuff is for a ton of different markets – from nutraceuticals, pharmaceuticals, agriculture, animal feeds and even cosmeceuticals. They've got this huge lineup of over 150 APIs that tackle some serious health stuff the world faces. That's why like 4,000 customers all over the globe rely on them.

"Nine patents showcase our strong dedication to breaking new ground caring for the environment, and

being top-notch," states Mr. Sunil Kumar Agarwal, the boss of WBCIL.

### **Pushing the Boundaries with Research and Getting Stuff Made**

At [West Bengal Chemical Industries Limited](#), their success hinges on the heart's research and the hustle of development. They pack top-notch R&D labs with the latest gizmos, including FTIR and NMR spectroscopy, SEM, DSC, EDAX, DLS etc giving us the muscle to whip up APIs that are not just safe but also do the job and can keep up with the demand.

### **Sustainability Isn't a Maybe—it's WBCIL's Mantra**

WBCIL's pledge to being green shows up big time in their new APIs that dial down the harm to Mother Nature and crank up how much they get done. They are talking methods that don't need solvents and cutting back on how much juice they burn through when they're bringing APIs to life.

### **Peeking Over the Horizon**

WBCIL stands firm in supporting India's 'Aatmanirbhar Bharat' plan, which boosts the country's independence in making pharmaceuticals. With the world needing more quality APIs, they're taking the lead in offering clever solutions that make a difference in people's well-being and communities.
